# LONGEST DAY FATHER'S

---

June 21 Longest Day of Year—Also  
Father's Day.

---

Yesterday, Sunday, June 21, is memorable for two reasons. First, it was Father's Day, and second, it was the longest day in the year. And despite the fact that Father's Day was given little or no observance in Bartlesville, it is not without significance that the longest day in the year has been chosen for Father's Day. Perhaps the selection of the longest day in the year may have been for the purpose of showing that the longest day seems short when its task is made lighter by filial appreciation.

From now until the 21st of December there will be a shorter space of time each day between the rising and setting of the sun. The shortest day of the year is December 21.

scar.

**Ballard's**  
**SNOW**  
**LINIMENT**

**Is the Right Remedy for All**  
**Abrasions of the Flesh.**

If the wound is cleansed and the liniment applied promptly, the healing process begins at once and the wound heals from the inside outwardly, thus performing a perfect cure that leaves no scar. If the wound heals on the outside too quick-
