

UNITED STATES NAVY

Jan. 2, 1969

Dear Mrs. & Dr. Corpron:

It's well after you left Kofei, our work is still going on. There are forty patients in the hospital. Dr. Chu and Lon Sun arrived here bringing 15,000 G.Y. They spent 2,000 G.Y. for traveling expense. Dr. Chu, Dr. Chang, Mr. Hsia, and Mr. Chang, took 22,000 G.Y. which they ought to have. The rest the amount of 118,000 G.Y. is divided by the staff, workmen and nurse students. But each of us (Dr. Kang, Miss Ling, Miss Fang and I) only get 1,500 G.Y. The meagre sum will be given from the Administration Committee. Dr. Chy held a Committee last night to discuss something about the future progress of Hospital. We decided that each one of us must do our best to carry on. Our work be unselfish and helpful to the Hospital, we must help each other. It is decided that we must have a man to manage Mr. Chao's

UNITED STATES NAVY

account and is approved, we appoint Mr. Chu to be in charge with the account with Mr. Chao and dispensary with Mr. Chang. Dr. Chang cares the medicine of the ward.

But Dr. Chang objected against the <sup>Suggestion</sup> ~~Suggestion~~ of controlling the dispensary, He said that my son is honest enough to be independent, should not be such appointment like that.

I am supposed to take care of the bicycles for public use, but Dr. Chang personally took one for private use, It seems that I can't carry my work on, perhaps your ~~letter~~ letter to him might make it most effective and clear.

We do hope that you may return back to manage the hospital again.

Sincerely yours,  
H.C. Yuen.
